

## SOCIALLY DISTANT TROUBLESHOOTING

We believe that despite the distancing protocols necessitated by the pandemic, our products should continue to give you reliable service. That is why L&T Valves Aftermarket – committed to delivering the best performance through the product lifecycle – offers three convenient routes to remote service support

### Telephone/Video conferencing

Our specialised service engineers are just a phone call away. Via telephone and video conferencing, they can guide your site operators to repair your valves.

**Just call +91 74790 19290/ Somasekar NG, Manager - Global Service or email [aftermarket@Lntvalves.com](mailto:aftermarket@Lntvalves.com)**

### Online Videos

Our webinars and other informative videos are available on

<https://www.Lntvalves.com/knowledge-centre/videos/>

### IOM Manuals

To access a wealth of troubleshooting information, just click on the link
