

BEAT DISTANCE, TIME AND COST - THE SMART WAY

L&T Valves introduces smARt.view, an Augmented Reality (AR) solution that allows you to connect directly with subject matter experts in our offices, shopfloors or design labs – overcoming the limitations of distance and time.

- Real-time support to troubleshoot mission-critical valves in remote locations
- Online interactive sessions facilitating “virtual handholding”
- Remote inspection of valve repairs and tests
- Rich interactions powered by video, audio, chat and live annotations
